Jan. 26, 1936.

Dear father, mother & all the rest,

We have had our first snow the other day about 3 inches. It has cleared off and looks like it is going to be warm again just like it was before just like summer and not so cold at night has not been down to zero only a few nights before this time. What kind of weather are you having there now. We are all well, hope that this finds all of you well. We will have between 4000 & 5000 bushels of corn off 85 A. The beets made about 14 tons to the A. but did not get much a ton for them the labor to get them tended cost over half of what we got out of them that was for just the hand work. Then we had to pay our seed and summer help and other expense out of what was left. The children are doing fine in school and in there Sunday school work and they music. They both have lots of subjects in their school work so they are sure busy from morning till night. Daddy dear I am sure sorry to have to send this deed back and not happy you but I just don't have any ready cash and the banks won't loan anything only just for seed that have to have. I have some sheep on borrowed money you. The grain plus feed is all to sell yet which I hope will run me until fall.
